# Alabama Enabling Technology Employment by Industry Sectors

## Alabama Enabling Technology Industry Overview

Sector	# of Companies	# Employed
Other General Purpose Machinery Manufacturing	101	3,245
Semiconductor and Other Electronic Component Manufacturing	47	1,746
Navigational, Measuring, Electromedical, and Control Instruments Manufacturing	55	2,218
Scientific Research and Development Services	316	5,443

# Other General Purpose Machinery Manufacturing

**3339: 33391 Pump and Compressor Manufacturing** This industry comprises establishments primarily engaged in manufacturing pumps and compressors, such as general purpose air and gas compressors, nonagricultural spraying and dusting equipment, general purpose pumps and pumping equipment (except fluid power pumps and motors), and measuring and dispensing pumps. **33392: Material Handling Equipment Manufacturing** This industry comprises establishments primarily engaged in manufacturing material handling equipment, such as elevators and moving stairs; conveyors and conveying equipment; overhead traveling cranes, hoists, and monorail systems; and industrial trucks, tractors, trailers, and stacker machinery.

101 companies; 3,245 employed;  
26% of Robotics Industry Employment

# of Employees	% of Companies
1-49	83%
50-99	11%
100-249	4%
250+	2%

## Top 5 Job Categories:

- 12% Multiple Machine Tool Setters, Operators, and Tenders, Metal and Plastic
- 11% Welders, Cutters, Solderers, and Brazers
- 9% Machinists
- 5% Helpers--Production Workers
- 4% Welding, Soldering, and Brazing Machine Setters, Operators, and Tenders

# Semiconductor and Other Electronic Component Manufacturing

## 3344 Semiconductor and Other Electronic Component Manufacturing

This industry comprises establishments primarily engaged in manufacturing semiconductors and other components for electronic applications. Examples of products made by these establishments are capacitors, resistors, microprocessors, bare and loaded printed circuit boards, electron tubes, electronic connectors, and computer modems.

47 companies; 1,746 employed;

# Navigational, Measuring, Electromedical, and Control Instruments Manufacturing

## 3345 Navigational, Measuring, Electromedical, and Control Instruments Manufacturing

This industry comprises establishments primarily engaged in manufacturing navigational, measuring, electromedical, and control instruments. Examples of products made by these establishments are aeronautical instruments, appliance regulators and controls (except switches), laboratory analytical instruments, navigation and guidance systems, and physical properties testing equipment.

55 companies; 2,218 employed;

# Scientific Research and Development Services

## 5417 Scientific Research and Development Services

This industry group comprises establishments engaged in conducting original investigation undertaken on a systematic basis to gain new knowledge (research) and/or the application of research findings or other scientific knowledge for the creation of new or significantly improved products or processes (experimental development). The industries within this industry group are defined on the basis of the domain of research; that is, on the scientific expertise of the establishment.
